

CUSTOM LIGHT TRAP

**Better
AIR**

Light traps are important to any situation that requires a complete blackout. They are used by mounting over the fan opening in order to block out the light but not prevent airflow

- ▶ Custom built to any size
- ▶ Frame is built out of high quality galvanized steel, Stainless steel is also available upon request
- ▶ Unique frame design eliminates the need for plugs, resulting in a more efficient operation
- ▶ Black and brownouts are both available
- ▶ Will not corrode or rust
